Lack of technically sound persons has made a gap in fulfilling the citations for industrial growth. It is difficult to find good candidates with sound knowledge that work for the achievement of industry. It is then we decided to start our training classes with the help of professionally qualified technicians and faculties. With their tremendous experience and knowledge they guide and train students to work in the industry. The knowledge and skills will help them work better.

SERVICES

Here we provide individual care and attention to every student. Each staff is bound to help and clarify the concerns of the students. Extra care and attention is provided to every student if required. Moreover we provide hostel facility (*Hotel Rooms **) to students on demand. Language is another important factor that we need to consider while moving for work. Here we provide basic language training classes. Lab is open from **9:00 am** till **9:00 pm** and staffs are available so students can avail lab facilities irrespective of time. On-sight training is provided to every students (on request) so they will have an experience about how the system works.
